## forces of physics

vera cortes, art agency  
from 7th march to 13th april 2006

- a comet?
- yes, a comet.
- a comet is a star, that due to forces of physics,  
spins around and comes in the direction of the earth.

## forces of physics

## A 5x5 grid of 25 small images showing a man in a white t-shirt and blue pants performing various tasks in a room. The tasks include painting walls, cleaning floors, moving furniture, and working on a window. The images are arranged in a grid, with the first row showing the man painting the wall, the second row showing him cleaning the floor, the third row showing him moving a sofa, the fourth row showing him working on a window, and the fifth row showing him painting the wall again.
